

Description

The XM-6035 photoluminescent tape is made from 100% polyester. This cuttingedge tape is designed to provide exceptional visibility in low-light conditions and ensure the safety of workers in various industries. XM-6035 ensures that workers remain easily seen even when light sources are limited or absent.

Product Construction

The construction of photoluminescent tape XM-6035 involves incorporating special dyes that have photoluminescent properties. These dyes absorb and store energy from ambient light. Once the light source is removed, the stored energy is released in the form of vibrant glow.
