# 19

SCAN FOR DETAILS

XM-7000 Lumi photoluminescent tape is designed to provide exceptional visibility in low-light conditions and ensure the safety of workers. It absorbs and stores light energy, which is emitted as a visible glow in dark or low-light conditions. This ensures that workers remain easily seen even when light sources are limited or absent. XM-7000 Lumi is made from FR treated cotton and has been certified by EN 14116, EN 11611, EN 11612 and EN 469.

## Our latest development Glow in the dark tapes!

### Key features:

LUMI tapes provides a third level of protection in low or no light conditions by providing an intense glow for up to 8 hours without the use of batteries. They are recharged by the Sun or Lamp light after 5 to 30 minutes of exposure. It is a revolution in safety and with LUMI tape your visibility is a real 24/7 (in combination with our regular reflective tapes).
